General Product Safety Regulation (GPSR)

MAYTONI GmbH Feldstiege 98 48161 Münster www.maytoni.de +49 (0) 2533 64 295200 l info@maytoni.com

Important Notice:

Please read the included manual carefully before assembly and before using the light. Keep this manual in a safe place so that it remains accessible throughout the product's lifespan.

Proper installation and handling according to these instructions are essential to ensure the safety and functionality of the product.

Safety Requirements:

- The installation and connection of the light should only be carried out by qualified professionals.
- Warning! Switch off the power supply before installation.
- Before connecting the light, ensure that the technical data of the electrical network matches the specifications on the packaging.
- When mounting the light to a wall or ceiling, ensure secure fixation, taking the weight of the light into account.
- Use the lights only for their intended purpose. Lights suitable for indoor residential lighting should not be used outdoors. Lights with a protection rating lower than IP 44 should not be used in areas with high humidity.
- All parts for electrical connection should not have any twists or kinks.
- If the external cable or wiring is damaged, it must be replaced to avoid the risk of electric shock.
- Switch off the power supply before replacing the bulbs in the light. Wait until the bulbs have cooled down.
- Use only the type and recommended power of the bulb specified in the installation plan. The manufacturer is not liable for any damage to the product if bulbs with different power ratings are used.
- The light is suitable for electrical networks with a voltage of 220-240 V.
- Do not cover the light.
- Keep the light out of reach of children.

Maintenance Guidlines:

- Switch off the power supply using the switch before cleaning the product.
- Prevent moisture from entering the junction box or other parts of the wiring.
- Allow the lamp to cool down for at least 10 minutes before cleaning.
- Use only a soft, dry cloth for cleaning.
- For warranty repairs, please contact the place of purchase.
- The manufacturer guarantees the functionality of the device for 2 years (3 years for LED products) from the delivery date by the authorized dealer.
 The warranty is void if the product has been tampered with without authorization.

Explanation of the Symbols on the Lamp Label:

All valid symbols are shown on the packaging of the product.

Class I Protection: This lamp must be connected to the earth terminal via a protective cable (yellow-green wire)..

Class II Protection: The lamp has double or reinforced insulation. No protective earthing is required.

Class III Protection: Low voltage light...

Indoor use only.

Outdoor use only.

Do not dispose of the product with household waste. It must be disposed of at a facility designated for the disposal of electrical devices.

Warranty:

- For warranty repairs, please contact the dealer where you purchased the product.
- The manufacturer offers a 2-year warranty for lights intended for use with incandescent bulbs, and a 3-year warranty for lights with an integrated LED module. The warranty begins from the date of purchase from the dealer and the completion of the warranty card.
- The warranty does not apply in the following cases:
 - o Mechanical damage to the light
 - o Improper installation or operating conditions
 - o Unauthorized modifications to the product
- Consumables (such as light bulbs, fasteners, etc.) are excluded from the manufacturer's warranty.
- The manufacturer reserves the right to make changes and improvements to the product's design and the scope of delivery without prior notice, as long as this does not affect the product's technical specifications.
- Please keep all packaging until installation is complete, as well as the manual for future reference.
- We are compliant with EU standards, norms and regulations

MAYTONI

EC-Declaration of Conformity

We as the **Maytoni GmbH** declare under our own responsibility that the device referred to complies with the essential requirements of the following EU Directives:

- LVD 2014/35/EU (Low Voltage Directive)
- EMC 2014/65/EU (Electromagnetic Compatibility) applicable only for LED
- Ecodesign 2009/125/EG (Ecodesign Requirements for Energy-Related Products) applicable only for LED
- RoHS 2011/65/EU (Restriction of Hazardous Substances in Electrical and Electronic Equipment)

This is possible by application of the following harmonized standards:

- LVD
 - o EN 60598-2-1
 - o EN 60598-2-4 (applicable only for movable lamps without LED)
 - o EN 62031 (applicable only for non-movable lamps with LED)
 - o EN 60598-2-4 (applicable only for movable lamps with LED)
- EMC
 - o EN 55015
 - o EN 61547 (applicable only for LED)
 - o EN 61000-3-2
 - o EN 61000-3-3
- Ecodesign
 - o VO-874; VO-244; VO-1194 (applicable only for LED)
- RoHS
 - o EN 62321-3-1
